Recovery of MV Kuber & Dinghy

- Law enforcement authorities recovered the vessel MV Kuber which was abandoned off Mumbai.
- The boat contained the dead body of Amar Sinh Solanki, the captain of the boat, who had been killed by the terrorists before they embarked on the inflatable dinghy.
- The boat also contained many items and equipments left by the terrorists which unmistakably show their Pakistani origin.
- One satellite phone was recovered from the boat. This phone was used for calling various satellite numbers. These have known linkages with top LeT functionaries in Pakistan. The terrorists had been instructed to throw the instrument overboard before reaching Mumbai. They failed to do so (revealed in intercepts).
